

The “Top 25” imported goods from Non-European countries

As we can read from the table, crude oil, natural gas, ore and coal are at the top imported goods from non-European countries. This is due to Saarland's energy needs and requirements. Further down on the list are once again various items pertaining to the pharmaceutical and automobile industry of Saarland.

Top Import goods from Non EU Countries		
1	Crude oil and natural gas	351.760.953
2	Iron ore	303.304.297
